About the HeatShield Training and Installer Opportunity

SaverSystems offers training to qualified chimney professionals. Acceptance for training is based on industry experience, education, certifications, peer references and course availability. Currently, our one-day training qualifies for 6 CEU credits for both CSIA and NFI certifications. When you have successfully completed our training course you will be eligible to purchase the HeatShield Cerfractory Flue Sealant and Repair System on a non-exclusive basis, provided you continue to meet the requirements below. The HeatShield products and supplies are available on factory direct basis only. There are no franchise fees, exclusive or protected territories or purchase minimums.

HeatShield Installer Requirements:

In order for you to receive maximum benefit from this opportunity, you must be involved in the daily cleaning, inspection, repair, and relining of masonry chimneys and meet the following criteria:

- Certifications from one or more nationally recognized education and certification organizations
- Membership in the NCSG, HPBA, or nationally recognized trade organization with strict adherence to the published "Code of Ethics"
- Your company must currently offer Level II inspections per NFPA 211
- You must complete the HeatShield Installer factory training course

Each installation of the HeatShield Cerfractory Flue Sealant system must be completed by a factory-trained employee. Any employee not factory trained by SaverSystems is not to install this system.

1. I certify that all information I have provided on this application is true, complete, and correct.
2. I understand that any information provided by me that is found to be false, incomplete, or misrepresented in any respect will be sufficient cause to (i) cancel further consideration of this application, or (ii) immediately discharge me from the rights to purchase good and services from SaverSystems whenever it is discovered.
3. I understand that if my company goes 18 months or more without purchasing HeatShield Cerfractory Flue Sealant, our status as an authorized Heatshield Dealer will become inactive and we will be unable to purchase HeatShield Cerfractory Flue Sealant from SaverSystems or an authorized distributor. To reactivate, I will need to complete a HeatShield training test available at www.heatshieldpro.com/test with a passing score of 80% or higher.
4. I expressly authorize, without reservation, SaverSystems, LLC (dba SaverSystems), its representatives, employees or agents to contact and obtain information from all references, public agencies, licensing, certification authorities and educational institutions and to otherwise verify the accuracy of all information provided by me in this application, I hereby waive any and all rights and claims I may have regarding the employer, its agents, employees, or representatives for seeking, gathering, and using such information in the application/approval of the “Approved HeatShield Installer” process and all other persons, corporations or organizations for furnishing such information about me.
5. I certify that I have read, fully understand and accept all terms of the foregoing Applicant Statement.
